A message from the Chairman

We are very pleased to have some new faces on and back-stage this year to join our enthusiastic cast for Babes in the Wood. In the news over the past months, we have seen how children are often the innocent victims of world events. Our two orphans—with a large Trust Fund—are nearly innocent victims of a greedy and insensitive Sheriff who wants their fortune for his evil plans. Luckily he completely lacks any expertise in interview technique, selecting two totally incompetent applicants to carry out his foul plan. Add in the archetypal English hero, Robin Hood and all turns out well in the end. As with all stories, there are many other people going about their daily business as events unfold, so look out for Wally, the harassed castle servant, Nurse Potts the caring chaperone to Marian, Sister Immaculata, the enigmatic Nun as well as Fairy Willow who is there from time to time, to help those who have lost the plot. Hope you enjoy the show as much as we do.
